

Luncheon, walk highlight ceremony

Representatives from the city, chamber of commerce, and local businesses, along with members of the State Highway Department and LT Contractors, met at the Windward Inn on Aug. 3 to celebrate the near-completion of the Highway 101 project.

State Highway Department Regional Engineer Jim Gix (left) was the first of several honored speakers to term the highway project "a turning point for the City of Florence" at a luncheon that preceded the ribbon cutting ceremony.

Mayor Wilbur Ternyik (above) led approximately 35 participants on a walk from the Windward Inn south to the Highway 126 intersection after the ceremony.
